THE REPLY NETWORK
A network of specialists optimised for agility and innovation
OUR CUSTOMERS
Lasting relationships with the world’s most successful organisations
150+ Big Data Engineers & Data Scientists
50+ RPA & Intelligence Automation Specialists
30+ Production projects, up and running

BIG DATA & ANALYTICS
Architects and developers with extended experience in big data platforms, cloud & real-time, and visualization tools

DATA SCIENCE
Scientists specialized in designing and implementing Advanced Analytics solutions, Machine Learning, Deep Learning & AI

INTELLIGENT AUTOMATION
Experts in identifying opportunities for automation, and delivering solutions harnessing best of breed RPA, AI and conversational technology

FOCUSED GROUPS
Strong vertical domain knowledge and experience in the Insurance & Retail domain with dedicated consultants working on IoT platforms, Agricultural & Automobile Sector.
Advisory & Education

Advisory to assist and drive company data transformation in order to assess data, technology and human capital with the purpose of designing business case, processes and organization.

Training course for employees and graduated student to develop Data Science competences on new generation analytical tools

Consulting and advisory service which allows to drive data experimentation that unlock business value

Factory & Delivery

Project management, designing and implementation professional services to enable ideas and prototypes to become a data-driven product. This process is characterized by agile development step and data driven decision system.

Models building and industrialization to deploy predictive analytics in production environment

Integration and development of advanced analytics solutions to support business decisions and actions
The Data Incubator is a Training format developed in the United States, offering specific course to master open source Data Science tools and understand Advanced Analytics methodologies.

A variety of innovative companies partner with The Data Incubator for their hiring and training needs, including LinkedIn, Genentech, Capital One, Pfizer, and many others.

Reply is a Partner in Europe for Italy, Germany, Great Britain, Switzerland and Austria with 5+ certified trainers.

7 TOPICS

- Advanced Python
- Introduction to Machine Learning
- Advanced Machine Learning
- Introduction to Distributed Computation
- Distributed Computing with Spark
- Data Visualization
- Thinking outside the data

8 Weeks intensive training

- Coding Challenges
- Lectures
- Personal Project
- End of day stand-up
